Family Focused Computer Classes

If you are looking for something for the whole family to do, look no further than our family focused computer classes! Attend one of these fun classes at a location near you. Unleash the creative genius of your family!

Family Focus: Tell a Story with Digital Media

Use a collection of digital media such as photos, narration and music to create a compelling visual story. Turn your story into a video that you can share with family and friends. You can bring your very own family pictures on a flash drive, and then save your project at the end of the class. (Ages 6+)

Family Focus: Create a Blog

Learn how to create an easy to use website where you can publish your thoughts, comments or pictures so you can share with family and friends. You can bring your very own family pictures on a flash drive, and then save your project at the end of the class. (Ages 6+)

Family Focus: Make a Movie

Direct, produce and edit your own movie using Microsoft's Windows Movie Maker. Learn how to create a movie with video clips and photos. Spruce up your movie by adding cool transitions, effects and movie titles. You can bring your very own family pictures and video clips on a flash drive, and then save your project at the end of the class. (Ages 6+)

Family Focus: Create a Video Game

Interested in how video games are created? Learn how to create your own first-person style video game using the Unity 3D Game Development Tool. Experience the fundamentals of game design, from crafting a storyline to tweaking formulas for more aggressive features. Bring your flash drive to save your game at the end of the class. This class is broken down into two 3-hour classes. (Ages 13+)

Technology and Education Center

The Technology and Education Center at the Orlando Public Library offers computer classes in English and Spanish.

- Take one of the many classes we offer like HTML, Photoshop or QuickBooks in one of the three state-of-the-art classrooms.

- Learn all about the Macintosh computer in one of our Mac computer classes such as Keynote, iPhoto or Numbers.
- Enjoy hands- on experience with e-readers such as the Nook and Kindle! Take a closer look at tablet options including the iPad, Galaxy and Zoom at the Technology Petting Zoo on Wednesday January 4, from 2 to 4 p.m. in the Technology and Education Center.

For more information about the Technology and Education Center, please visit www.ocls.info/Locations/MainLibrary/TEC/tec.asp

Southwest Branch

The Southwest Branch offers computer classes in English for kids, adults and seniors.

- A wide assortment of classes are offered including beginner classes such as How to Use the Mouse and Keyboard to more advanced classes for experienced users such as Cloud Computing and QuickBooks.
- Sign up for one of the Photoshop classes and learn how to take those family or vacation photos to the next level.
