### **Art 101: Photography**

Orlando Public Library, Albertson Room

*Wednesday, March 22, 6:30 p.m.*

Photography got its start in the early 19<sup>th</sup> century as an attempt to accurately depict the world we live in. Since that time, advances in photographic technologies have allowed photographers to experiment with the way they capture people and objects. This month, learn about photography's history and learn to colorize black-and-white images. Photographs will be provided, but participants are encouraged to bring their own black-and-white images to color. Registration required. Ages 15 and up.
