It’s hard to believe that summer is just about over. Ever since June, we’ve been encouraging you and your children to help us Build a Better World by participating in our Summer Reading Program. This year’s program was packed with fun, educational events for kids and adults, but now it’s time to wrap things up so you can get ready for back-to-school planning and preparation. But first, we’ll have one last hurrah at our End of Summer Celebration at the Orlando Public Library on August 5. Don’t miss out – we’ll have games and prizes for those who participated in this year’s Summer Reading Program, and we have celebrations for both kids and adults! See page 7 for details about our Adult Summer Reading Program celebration and 31 for our Kids Summer Reading celebration. Teens, we have a party planned for you, too. It’ll take place at the Orlando Public Library on August 2, and there will be games and prizes for you, too. See page 35 for more information.

Later this month, we partner with the Investor Protection Institute to host Dash for the Stash, an investor-education program that will offer participants advice on how to make important investment decisions. Cut through the jargon and sales pitches you see in advertisements, and get investing information from unbiased and non-commercial sources available at the library. The series of events, which takes place August 20-26, will teach you about free investing tools available with your library card, help you develop skills to build your wealth and answer questions about the best ways to establish college-savings goals for yourself or your children. We’ll also give you a chance to win a $1,000 contribution to your IRA, so stop into the library and ask how to enter, and see page 8 to find out when you can attend a Dash for the Stash program.

We are also excited to join forces with STAR_Net to help you make the most of the upcoming solar eclipse, which will be visible across the contiguous United States on August 21. It’s a special day because this is the first time in nearly a century that a solar eclipse has been viewable from coast to coast. To mark the occasion, the Orange County Library System joins libraries nationwide in hosting viewing parties at library branches and handing out special eclipse-viewing glasses. Remember, you can damage your eyes if you try to view the eclipse without eye protection, so see page 15 to find out which branches are hosting parties to help you safely view the eclipse and to celebrate this historic event.
