Microsoft Office 2013 is Here!

There's a whole new reason to visit your library. Microsoft Office 2013 classes will now be amongst our offerings as well as made available for general use on public computers. Try out the newest features in Word, Excel, PowerPoint, Access and Publisher. If you still use Microsoft Office 2010, classes will still be offered for a limited time. Check the online event calendar for dates and times at **ocls.info/microsoft**.

New Classes

Microsoft Visio 2013 and Microsoft Project 2013 each have a new level class added to the class curriculum. Explore additional features in these new classes. Check your library's class schedule for availability, dates and times.

Get More Out of Your DSLR Camera

These classes will help you develop skills in using your DSLR camera!

NEW! Understanding Exposure

Learn how aperture, shutter speed and ISO affect the focus, blurriness or graininess of your photos.

Photography Composition

The rule of thirds is probably the most often referenced photography rule of composition. It is all about subject placement within the frame. Learn more about the rule of thirds and how you can use it to produce more interesting and dynamic photos.

Product Photography

Learn how to take crisp and clear commercial images of products for your website, catalog or flyers. Learn to photograph against a paper sweep and in a lightbox. The resulting professional-quality photos will make your business more appealing to customers.

Coming Soon from the Video Studio

A *Green Screen Movie-making* series and an *Adobe Premiere Pro* series are forthcoming. Be sure to take *Adobe After Effects: Green Screen Compositing* and *Adobe Premiere Pro Fundamentals* to get you started.

CubeSat

Orlando Public Library, Melrose Center

Saturday, February 21, 1:30 p.m.

NASA's CubeSat Launch initiative provides opportunities for small satellite payloads to fly on rockets planned for upcoming launches. CubeSats is a class of research spacecraft called nanosatellites which are approximately four inches long and weigh about three pounds. NASA's Shaun Daly works with high school students to design and launch CubeSats. Learn more about the program and the team's project.

Cyber Security

Orlando Public Library, Melrose Center

Thursday, February 26, 6:30 p.m.

Learn about cyber security topics such as cyber defense, forensics and web application security from independent Security Researcher Gaelan Adams. Watch a live demo of offensive security and learn how to circumvent such attacks using open-source tools.
