Camp Savvy: Become Technology Savvy

Are you up to the challenge? Learn about new and exciting computer programs this summer and become the savviest of them all! Have fun while becoming Technology Savvy and become eligible to win cool prizes! Camp Savvy is a program designed for children ages 6-12. Classes for children include Computer Explorer, Easy Typing, The Virtual Painter, Animated Talking Books, Exploring Electronics, Building 3D Models and many more fun and exciting classes. For a complete list of classes at your nearest location, please visit **ocls.info/campsavvy**.

- **3D Design for Printing**
Get a firsthand view of the Replicator 3D printer in action as it builds an object layer-by-layer! Draw and design your very own 3D objects with modeling software.
- **Your Family Tree**
Discover the history of your family and create your own family tree. Learn the basics of genealogical research using popular databases.
- **Photo Editing**
Add cool effects to your photos such as cartoon transformations, image morphing, artistic painting and much more using a Web-based photo-editing application.
- **Create a Cartoon Character**
Use the Internet to create a cool 3D-animated avatar modeled after yourself that can be used all over the Web.

TechKrew: Unleash Your Creative Genius

Are you techie or do you want to be? Join the TechKrew in a fun environment where you can get creative and learn new things. Build your own apps and video games, mix music, design graphics, record, edit and add special effects to movies, build 3D models, explore electronics and more! For a complete list of classes at your nearest location, please visit **ocls.info/techkrew**

- **Build a Website**
Create a website with WordPress. Customize the appearance and layout of your site to get the look you want by using a wide selection of free design options.
- **Design Graphics Using Photoshop**
Use the advanced manipulation and blending features of this professional-grade software to design and edit graphics and images.

- **Intro to Mobile Web App Development**
Create a mobile Web app with an easy-to-use application that simplifies mobile development.
- **Film and Edit a Movie**
Use film-making techniques to create and edit your own movie. Add transitions, special effects and titles to put the finishing touches on your work.

Most classes are free to Orange County Library System regular, property owner and fee cardholders. Some classes include a fee to cover the cost of used materials. Users who reside outside the Library's service area may attend by paying a non-refundable fee at the time of registration prior to class time. Please check program details for applicable fees. Where they apply, registration fees must be paid prior to class time. To pay for your class, please call us at 407.835.7323 or visit any of our locations in person. A \$5 late cancellation fee will be assessed if cancellation is not made the day prior. Registration required.

Social Media Safety and Internet Etiquette

Orlando Public Library, Melrose Center Saturday, June 13, 11:30 a.m.

It's easy to feel anonymous online, and say or do things on the Internet you would not in person but web content can remain online permanently and is very hard to erase. Blogger and educator William Jackson will provide guidelines for online interactions that will keep you safe and keep your digital reputation intact.

Show Control Case Studies

Orlando Public Library, Melrose Center Thursday, June 18, 6 p.m.

Join us for a behind-the-scenes look at Show Control technology in the entertainment industry. Ever wonder how they bring together complex shows featuring lighting, sound, projections, special effects and moving machinery? Industry experts will explain the hidden systems and techniques that make your favorite attractions a reality.
