Summer Is Almost Over but the Tech Fun Doesn't Have to End!

With Whiz Kids and TechKrew classes still available at a library branch near you, your child or teen can learn a new skill and shift back into learning mode! Check out ocls.info/whizkids to register for classes such as littleBits: Robotics, Machines, Motion and Engineering Using K'NEX and 3D Design for Printing. Parents and teens can visit ocls.info/techkrew to register for fascinating TechKrew classes such as *Design Graphics Using Photoshop*, *Improve Your Job Interview Skills* and *Electromagnets Using Snap Circuits*.

Turn Your Vacation Video into a Cinematic Masterpiece

Create and Edit Movies Using iMovie

Edit and arrange video clips, and add titles and transitions. Learn how to export an iMovie project to share with friends and family.

Adobe Premiere Fundamentals

Edit your video faster and more accurately with Adobe Premiere Pro. Split and trim video clips with precision directly in the timeline using keyboard shortcuts. Learn how to make your video look more professional by adding a wide range of pre-built effects, transitions, titles and many more features.

Adobe Premiere Level 1

Use Premiere Pro to edit your movie. This introductory class covers importing, playback, and editing in Adobe Premiere. Learn how to combine video, graphics and music to create a video ready for YouTube!

Adobe Premiere Level 2

Explore ways to fix poorly shot footage using color correction techniques in Premiere Pro. Learn how to read a Wave Form Monitor, read and change brightness values using the Curves Graph and correct color balance using RGB Parade.

Jam Out in the Audio Studio

Fundamentals of Sound for Audio Engineering

Learn and apply concepts key to audio engineering including frequency, amplitude, velocity and phase.

Audio Equipment Training: Live Mixer Fundamentals

Prepare to use a live mixer in our audio studio or at your next event. Learn basic signal flow, effects processing and monitoring on the Peavey FX2 24 channel live mixer.

Live Room Training

Learn the studio workflow, procedures and best practices. Prior to booking the Audio Studio Live Room, users must participate in this assessment to show proficiency in using the equipment.

Cardholders must attend the Melrose Center General Orientation and must be at least 18 years or older or accompanied by an adult 18 years or older to register for this class.

Learning to drive or looking to get back on the road?

Driving simulator classes at the Melrose Center offer students the opportunity to learn the rules of the road in a controlled environment. Ask a Melrose staff member for more information or call 407.835.7323 to register for one of these exciting classes:

Driving Simulators: Introduction to Motor Vehicle Dynamics

Practice safety and defensive driving. Discover the history and science of the modern automobile. Learn to drive with Simuride Driving Simulator in realistic road conditions.

Driving Simulator Orientation and Assessment

Practice safety and defensive driving. Learn to drive with the Ultra Driving Simulator in realistic road conditions. Instruction will cover the use of the equipment and software. After completing the instruction, take an assessment that will allow you to reserve the driving simulator during scheduled lab time.

Cardholders must attend the Melrose Center General Orientation and must be at least 18 yearsold or accompanied by an adult to register for this class.

Tech Talks: Tech Central

Neurotechnology

Orlando Public Library, Melrose Center Saturday, August 15, 1:30 p.m.

Neurotechnology is any technology that has a fundamental influence on how people understand the brain, consciousness, thought and higher order activities in the brain. Felix Sosa, co-founder of neurotechnology startup Cortex, will discuss neurotechnological concepts, possible ethics and devices being used today.

Invest In Your Personal Brand

Orlando Public Library, Melrose Center Thursday, August 27, 6:30 p.m.

Learn to evaluate your own personal brand and develop a strategy to grow a reputable personal brand using digital tools and your own personal storytelling techniques. Ken DeGilio, founder and CEO of LaunchMob Media, will introduce tactics you can implement to develop a more effective personal brand.
