Coming Soon to The Melrose Center:

Sewing Camps and Classes

Have you ever wanted to make your own clothes, costumes, accessories, quilts or home décor but just did not know how to sew? The Melrose Sewing Lab will open soon. Students can take classes on sewing machine basics, using patterns and create inspiring projects for friends and family. Camps for teens will begin at the end of September 2015 where they will create a simple garment from beginning to end.

Jump Start Your Maker Project

Ask a Tech: Fab Lab

Are you stuck on a maker project? Do you need help with circuits, soldering, 3d design or programming? Come to the Fab Lab at the Melrose Center. Bring your projects, questions and curiosity. A specialized instructor will be available to assist you. Questions are handled based on the topics discussed in any of the Fab Lab classes offered at the library and time limits apply for 3D prints. Check the calendar for a list of available equipment and to register.

Ask a Tech: 3D Printing

Bring your 3D design questions and curiosity to the Fab Lab where a specialized instructor will offer tips and tricks to improve your design and assist you with printing. Materials cost applies, and printing is limited to an hour. Registration required.

Still Looking for Ideas for Your Next Maker Project?

Classes in the Fab Lab will help you learn the skills you need to realize your ideas. Visit ocls.info/melrose to register and learn more.

Introduction to Electronics Prototyping with Arduino Level 1

Use the Arduino to control custom circuits you construct. Learn the steps to make LEDs blink and speakers play music. Experience the potential of this inexpensive and accessible tool.

3D Printing Fundamentals

Convert a virtual object into a 3D printable file. Learn the software and settings necessary to 3D print quality objects. Become familiar with 3D print technologies and the technical specifications of consumer printers.

DIY: Custom RGB Lighting

Build a functioning RGB lighting strip. Learn about the inexpensive components and how you can customize lighting for your home, office or automobile. A small materials fee is required for this class.

Tech Talks: Tech Central

Technology in Film

Orlando Public Library, Melrose Center

Saturday, September 19, 1:30 p.m.

The film industry is constantly in motion as technology continues to evolve with every passing decade. A new revolution is stirring as 3D releases, DSLR cameras and free Internet distribution bring the digital age of filmmaking to Hollywood. Filmmaker and producer Jen Vargas will discuss the evolving technologies in the film industries.

Grant Funding for Filmmakers

Orlando Public Library, Melrose Center

Thursday, September 24, 6:30 p.m.

Grants, Fellowships and Residencies provide funding support for filmmakers and video artists. Learn more about resources for filmmaking funds at this performance art tech talk. It will feature an English presentation and Spanish performance by the Melrose Center's Senior Video Production Instructor Anthony Torres.
