Creativity Fundamentals

Add pizzazz to your holiday cards and insert animations in your family videos. Register for one of the Adobe Fundamentals classes available at a branch near you. Learn more about how these programs can help you get creative.

Adobe Premiere Fundamentals

Edit your video faster and more accurately with Adobe Premiere Pro CC. Split and trim video clips with precision directly in the timeline using keyboard shortcuts. Learn how to make your video look more professional by adding a wide range of pre-built effects, transitions, titles and more.

Adobe After Effects Fundamentals

Design cinematic visual effects and sophisticated motion graphics using shapes, layers, type tools and more. Learn the essentials of advanced animation and compositing using this professional-grade software.

Adobe Illustrator Fundamentals

Create complex and attractive designs using shapes, images and text with special effects. Build logos, advertisements, marketing flyers and other illustrations with ease using the vector tools. You will learn to draw and manipulate simple and even custom shapes, brush strokes, and text in unique ways.

Get Crafty

Minecraft: Make Mods Camp for Tweens and Tweens

Explore the world of computer programming in a hands-on development environment that is easy to master. Be the ruler of your Minecraft world: strike lightning at opponents, spawn mods to battle or harvest, and build complex structures with a single click.

WhizKids: Custom Paper Airplanes for Kids with Microsoft Publisher

Add custom graphics and text to create a one-of-a-kind paper airplane design. Students learn Publisher and have fun testing and comparing airplane design.

D.I.Y.: Create LED Greeting Cards

Create a personalized greeting card with a flashing LED! Use electronic components and conductive paint to construct a simple circuit. Learn basic electronics concepts like polarity, switches, conductivity and LEDs.

Making Sound Decisions

Logic Pro Level 1: Fundamentals

Is music production your passion? Harness the power of Logic Pro X to create amazing music. Explore the interface, learn how to create audio tracks with key preferences and save your project.

Audio Equipment Training: Microphone Theory Level 1

Explore how to protect the difference between condenser and dynamic microphones, learn to apply phantom power and essential practices for microphone use and care.

Audio Equipment Training: Microphone Theory Level 2

Take your understanding of microphones to the next level! Learn how to set up and breakdown microphones, explore how to protect microphones and discover how to use the polar patterns, proximity effect and phase to get the best sound.

Adobe Lightroom for Photographers

Get the most out of your digital photography and photo-editing experience! Organize, sort and search large collections of your photographs. Develop and edit your digital photos with a fast and easy workflow. Create books, slideshows and upload directly to cloud and social media services like Facebook and Flickr.

Holiday Family Photos

Orlando Public Library, Melrose Center

Saturday, December 5, 1:30 p.m.

The holiday season is here! Melrose Center staff invite families to have their holiday-themed portraits taken in the Photo Studio. Come photo-ready and we will have the studio available for your family photos.

The Basics of e-Publishing

Orlando Public Library, Melrose Center

Saturday, December 19, 1:30 p.m.

Today's self-publishing market has been transformed by new distribution tools that are free and easy to use. Numerous bestselling authors have supplemented traditional books with e-books or even launched their careers by publishing e-books alone. Join author Tawdra Kandle to learn about the basics of electronic book publishing.
