Minecraft Mods

Minecraft: Make Mods Camp for Tweens

Ready to create your own mods? Be the ruler of your Minecraft world: strike lightning at opponents, spawn mods to battle or harvest, and build complex structures with a single click. Learn the basics of programming mods with the easy-to-use LearnToMod application in this five-day camp. This class is open to students ages 10 to 12 and is offered at multiple library locations.

What's New in Windows 10?

Coming Soon to a Library Location Near You!

Windows 10 is Microsoft's newest operating system (OS). The OS controls all of a computer's basic functions including running applications. Students will learn to navigate, customize the start menu and change settings. Check the online calendar for available dates and times.

Bring Your Web Ideas to Life

JavaScript Fundamentals

Develop interactive Web pages with rich media content. Learn the fundamentals of JavaScript and useful techniques to bring static Web pages to life. The skills learned in this class will lay the foundation for developing not just advanced websites but interactive video games.

Manage Your Photos with Lightroom

Lightroom for Photographers Level 1

Get better control over managing and organizing large collections of photographs. Once your photos are imported, find out how to categorize, tag and rank your photos. Filter through and find photos quickly with the Sort, Select and Find management tools.

Lightroom for Photographers Level 2

Discover how easy it is to adjust one or multiple photos with just a few simple clicks. Quickly edit, correct exposure, convert images and enhance the color of your photos. Cut down your workflow in half the time!

Lightroom for Photographers Level 3

Capture the beauty of your photographs and share with friends, family and clients. Create eye-catching books, slideshows and contact sheets. Export multiple file types or upload directly to cloud and social media services like Facebook and Flickr.

Saturday Sewing Camps in January

It's Sew Easy! Sewing Camp for Teens (Ages 11-17)

Want to take the fashion world by storm? We will teach you everything you need to know to start sewing like a pro. Learn to sew garments, accessories and home decor from start to finish using professional patterns, fabric of your choice and professional sewing machines in this five-day camp. The camp runs every Saturday between 10a.m. to noon for five weeks.

Sewing Basics: Lounge Pants

Get ready for your first simple sewing project. Make comfy lounge pants which are the perfect first quick sewing project. Learn the basics of garment creation, sewing seams and hemming pant legs. This class will be two days and two hours each session. Participants must be able to wind a bobbin, thread a sewing machine, sew straight seams and cut fabric

Create and Program

Lego Mindstorm Camp for Tweens (Ages 11-13)

The power to create and command is in your hands with Lego Robots. Build a Lego Mindstorm Rover and program it to run mazes, sense surroundings and react to obstacles. Explore the magic of robotics and programming in this five-day camp. The camp runs every Saturday at the Melrose Center between 1 p.m. to 3 p.m. for five weeks.
